

WASTE COLLECTION

Due to the amber weather warning for hot weather throughout the remainder of this week, our collection crews will be commencing collections from 6.00am, to try and reduce exposure during the hottest part of the day. The warning is currently at amber however, if this rises to a red warning we are likely to suspend collections and recommence on Saturday, or next Monday. We are advertising this on the council's website and social media pages however, if you could also please arrange to share this message with your parishioners this would be greatly appreciated.

Thanks in advance

Lloyd Andrews
Operations Manager

Uttlesford District Council
